Art Unit: 1711

Claim 16 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The implantable body portion of an implantable device was not disclosed by the specification as filed and is therefore new matter.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 16 is rejected under 35 U.S.C. 102(b) as being anticipated by Tsukasa et al.

See the previous Office action at the penultimate paragraph on page 2.

Applicant's arguments filed 11-21-06 have been fully considered but they are not persuasive. The word "implantable" only implies a medical device that could be implanted in a living organism. With re to applicants argument pertaining to size, there is nothing in the claims requiring that the device be one for placement in a vessel. However, whether or not the examiner is correct, applicants attention is directed to Godin, Beyerlein and Revis at paragraphs 5, 66 and 14 respectively for stoppers which are actually implanted (and therefore "implantable" no matter how narrowly the term is interpreted) in a human body.

Art Unit: 1711

With re to rejoinder of claim 31, for the reasons set out above, claim 16 from which it depends is not allowable. With re to claims 32-35, these appear to be properly rejoinable at allowance.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
